# STAR PROJECT

## Product Requirements Document v2

Website + Web App MVP

| Document Field | Value |
|---|---|
| Product Name | Star Project |
| Document Type | Product Requirements Document (PRD) |
| Version | v2.0 - Final MVP Scope |
| Primary Market | Kassel, Germany - B2C parent-managed accounts |
| Primary Users | Parents/guardians and children aged 4-18 using one shared account |
| Prepared For | Internal product, design, and engineering planning |
| Date | 2026-05-05 |

*This document replaces the previous Project Stars PRD direction and reflects the updated product name, navigation, category, level, and user-flow decisions.*

# 1. Executive Summary

Star Project is a project-based career discovery platform for children aged 4 to 18. The MVP combines a public marketing website, a parent-managed registration and consent system, an account/profile page, a Start Your Career preference and project discovery flow, category pages, project workspaces, team invitations, report/video submissions, AI-assisted document review, manual admin video review, achievements, subscription payment approval, and premium Mythical content handling.

The product is designed for B2C adoption in Kassel, Germany, with future expansion toward schools, youth communities, and B2B2C partnerships. The product uses English as the initial UI/developer language while preparing for German localization later.

| Decision Area | Final MVP Decision |
|---|---|
| Product name | Star Project |
| Primary navigation | Home, Start Your Career, About Us, Account |
| Account model | One account = one guardian + one child; managed by the parent/guardian |
| Primary learning unit | Project |
| Project duration | 4-5 weeks depending on project complexity |
| Team requirement | Minimum 2 registered users; cannot start solo |
| Categories | Chef, Automotive, Farm, Robotics, Media Creator, Community Builder, Software Creator, Fashion, Music |
| Levels | Tiny, Baby, Junior, Young, Senior, Legendary, Mythical |
| Premium model | Mythical project/content; EUR 50 per star/project for MVP |
| Regular subscription | EUR 29/month/account |
| Late fee | EUR 0.50 for final deadline miss; capped at EUR 2/month/account |
| Payment | Flipflop and/or manual admin approval |

# 2. Product Positioning

Primary positioning statement:

> **Star Project helps children discover future careers by building real-world projects, working in teams, practicing research, following project management tasks, and earning stars through completed project outcomes.**

Long-form positioning:

Star Project is not a passive video course. It is a project-based career discovery platform where children choose a field, join or invite a project team, complete a 4-5 week real-world challenge, submit reports and video proof, receive review, earn stars, unlock levels, and build a long-term achievement profile.

| Differentiation | Product Meaning |
|---|---|
| Real-world physical projects | Children create something visible and useful, not only consume video content. |
| Career path orientation | Each category represents a future-oriented field such as Chef, Robotics, Fashion, Music, or Software Creator. |
| Project management habits | Children practice research, planning, execution, validation, improvement, reporting, and deadlines. |
| Teamwork by design | Projects require at least two registered users, encouraging accountability and collaboration. |
| Parent-managed safety | A single account is managed by the guardian, with consent, privacy, payment, and participation control. |
| Achievements and stars | Progress is visible through stars, levels, achievements, certificates, and account status. |

# 3. Research-Backed Problem Statement

The Home Page should include credible numbers that shift parent perception. The recommended approach is to use sourced statistics that support early career discovery, project-based learning, practical skill building, and future-readiness. Avoid unsupported claims such as "90% of kids do not know what to do" unless there is a verified source.

| Home Page Number | Claim for Website Copy | Why It Supports Star Project | Source |
|---|---|---|---|
| 39% | 39% of 15-year-olds across OECD countries are unclear about their career expectations. | Supports the need for earlier career exploration and self-discovery. | OECD, The State of Global Teenage Career Preparation / PISA 2022 |
| 70,000 | Around 70,000 apprenticeship positions remained vacant in Germany by the end of 2023. | Shows Germany needs a stronger practical talent pipeline. | Bertelsmann Stiftung, Left Behind or Opting Out? |
| 39% | Employers expect 39% of key job skills required in the job market to change by 2030. | Shows children need adaptable skills such as creativity, teamwork, learning, and technology literacy. | World Economic Forum, Future of Jobs Report 2025 |
| 66 studies | A meta-analysis of 66 studies found project-based learning significantly improves student learning outcomes compared with traditional teaching. | Supports the educational method behind project-based challenges. | Frontiers in Psychology, Zhang & Ma 2023 |

## Recommended Home Page Research Copy

- **Almost 2 in 5 teenagers are still unclear about their future career.** Star Project helps children explore future paths earlier through real projects, teamwork, and guided reflection.
- **Germany needs more practical future talent.** Around 70,000 apprenticeship positions remained vacant in Germany by the end of 2023.
- **Skills are changing faster than traditional learning paths.** 39% of key job skills are expected to change by 2030.
- **Project-based learning is evidence-backed.** A meta-analysis of 66 studies found that project-based learning can significantly improve student learning outcomes.

# 4. Target Users and Roles

| Role | Description | MVP Access |
|---|---|---|
| Public Visitor | Unregistered website visitor, usually parent or child browsing with parent. | Can access Home, About Us, public preview of Start Your Career, and registration/login CTA. |
| Registered User | One account shared by one guardian and one child. Parent manages the account. | Can access Account, Start Your Career, Category Page, Project Page, invitations, submissions, achievements, and payments. |
| Super Admin | Internal operator responsible for content, users, payments, review, and publishing. | Can upload projects, manage categories/levels, approve payments, review submissions, override AI, and manage achievements. |
| Expert Contributor | External subject matter expert for Mythical/premium content. | No dashboard in MVP. Sends material to internal admin. Cannot access child data or review directly. |

## Account Model

- One account represents one child and one guardian.
- If a guardian has two children, the guardian creates two separate accounts.
- The account is managed by the parent/guardian but can be used jointly with the child under parent supervision.
- No separate child login is required for MVP.
- A system-generated Student ID is used for invitations.

# 5. Information Architecture and Navigation

| Main Menu | Before Login | After Login |
|---|---|---|
| Home | Marketing content: hero, research facts, why choose us, new projects, testimonials. | Homepage can still show project updates and recommended content. |
| Start Your Career | Public preview and CTA to register. | Preference input, project listing, category selection, and entry into project flow. |
| About Us | Vision, mission, company overview, map, email, contact, address, legal links. | Same content, plus possible support/contact access. |
| Account | Login/register entry. | Profile, Student ID, level, stars, invitation list, achievement, notifications, messages, New Journey button. |

## Required Pages

29. Home Page
30. About Us Page
31. Register/Login + Parental Consent
32. Account Page
33. Start Your Career - Preference Input
34. Start Your Career - Project Listing
35. Category Page
36. Project Page / Workspace
37. Submission Status
38. Achievement/Certificate area inside Account
39. Admin Dashboard - Content
40. Admin Dashboard - Payment Approval
41. Admin Dashboard - Submission Review

# 6. End-to-End User Flow

42. Visitor lands on Home and sees research facts, value proposition, new projects, and testimonials.
43. Visitor chooses Account or Start Your Career and is prompted to register/login if not authenticated.
44. Guardian creates a parent-managed account, enters child data, age, parent consent, and minimum two category preferences.
45. User lands on Account page to view Student ID, name, class/category, level, stars, invitations, achievements, and New Journey button.
46. User enters Start Your Career preference flow if preferences need to be updated or completed.
47. User sees Start Your Career project listing with Popular, New Stars, Recommended, and Mythical cards.
48. User clicks a project card; system opens the Category Page to show whether the project is available based on category, level, stars, and age.
49. User selects an unlocked project and opens the Project Page.
50. User invites team member(s) by Student ID; project cannot start until minimum two registered users join.
51. User clicks Start; project timer begins for 4-5 weeks.
52. User follows weekly tasks: research/validation, build/create, test/feedback, improve/final review.
53. User submits report document and video proof.
54. AI reviews the report document; admin/expert-admin manually checks video if needed.
55. If accepted, user earns star, achievement is added, and next project/level may unlock.
56. If final deadline is missed, EUR 0.50 late administration fee can apply, capped at EUR 2/month/account, and retake becomes available after the project period plus one week.

# 7. Public Website Requirements

## 7.1 Home Page

| Section | Required Content |
|---|---|
| Header / Hero | Headline: "Let's Create Something Real" or similar. CTA: Start Your Career / Create Account. |
| Research Facts | Four data cards: 39%, 70,000, 39%, 66 studies. Include small source labels. |
| Why Choose Us | Explain combination of teamwork, project management, career path, research-based project learning. |
| New Project Release | Cards for new projects across categories. |
| Testimonials | Video review or child project review only if public consent is granted by parent. |
| Footer | About, Contact, Impressum, Privacy Policy, Terms, Email, Address. |

## 7.2 About Us Page

| Content Block | Requirement |
|---|---|
| Vision | Explain long-term ambition: helping children become creators and future-ready builders. |
| Mission | Provide safe real-world project challenges that teach research, teamwork, discipline, and creative execution. |
| Company Overview | Short explanation of Star Project as an education technology platform. |
| Map | Embedded map for company location. |
| Contact | Email, contact number, address, and contact form. |
| Legal | Impressum, Datenschutz/Privacy Policy, Terms and Conditions. |

# 8. Registration and Parental Consent

| Registration Field | Requirement |
|---|---|
| Guardian name | Required. |
| Email | Required and unique. |
| Password | Required. |
| Child name | Required; used for certificate by default. |
| Child birthdate | Required for age gate. |
| Region | Required; default can prioritize Kassel/Hessen. |
| Category preferences | Minimum two categories required. |
| Parental consent | Required before account activation. |
| Media/public sharing consent | Default private; public sharing opt-in only. |
| Deadline fee consent | Required if user enters paid/subscription project participation. |

## Consent Requirements

- Data processing consent.
- Parent/guardian responsibility confirmation.
- Safety and project rules confirmation.
- Media upload consent with private-by-default setting.
- Optional public display consent for testimonials or public project review.
- Subscription/payment and deadline administration fee disclosure.
- BuT-ready document disclaimer if the feature is shown later.

# 9. Account Page Requirements

The Account page is the user status center and should match the wireframe direction: profile identity, star count, invitation list, achievement list, and New Journey / Start Your Career CTA.

| Component | Requirement |
|---|---|
| Profile area | Profile image placeholder, child name, Student ID, current class/category, current level, total stars. |
| Message icon | System messages only; no free chat in MVP. |
| Notification icon | Deadline, invitation, review, payment, achievement, and admin notifications. |
| About | Editable short profile/about text. Parent-managed. |
| Invitation list | Incoming project invitations by Student ID; accept/reject buttons. |
| Achievement list | Completed projects, stars, certificates, and badges. |
| New Journey / Start Your Career button | Primary CTA to proceed into Start Your Career flow. |

# 10. Start Your Career Preference Flow

The former "What You Want To Be" concept is replaced by Start Your Career. The first stage is preference input.

| Requirement | Rule |
|---|---|
| Minimum category selection | User must choose at least two categories during registration or preference input. |
| Editable preferences | User can update preferences later from Account or Start Your Career. |
| Output | System uses selected categories to recommend Popular, New Stars, Recommended, and relevant locked/unlocked projects. |
| Language | Initial UI English; German translation to be prepared as a future localization layer. |

| MVP Category | Description |
|---|---|
| Chef | Cooking, taste testing, hygiene, simple food projects. |
| Automotive | Vehicles, mobility, mechanics concepts, future transport. |
| Farm | Nature, food, sustainability, growing, small experiments. |
| Robotics | Sensors, automation, simple robot project logic. |
| Media Creator | Video, storytelling, project review, presentation. |
| Community Builder | Social impact, local problem solving, service projects. |
| Software Creator | Logic, simple digital project, app concept, algorithmic thinking. |
| Fashion | Design, materials, style, sustainable fashion projects. |
| Music | Rhythm, recording, audio, performance, creative sound projects. |

# 11. Start Your Career Project Listing

| Section | Requirement |
|---|---|
| Popular Projects | High-engagement projects across categories. |
| New Stars | Recently released projects. |
| Recommended Projects | Based on selected categories, age, level, and previous stars. |
| Mythical / Premium | Premium expert content shown separately with EUR 50/star/project for MVP. |
| View All | Browse all cards with filters by category, level, age, availability, and project status. |

## Project Card Requirements

| Card Field | Description |
|---|---|
| Thumbnail | Image or visual preview. |
| Category | Color-coded category badge. |
| Level | Tiny/Baby/Junior/Young/Senior/Legendary/Mythical. |
| Age limit | Minimum age and/or recommended age range. |
| About | Short one- or two-line description. |
| Star reward | 1 star for regular; 2-3 stars for Mythical. |
| Status | Available, Locked by Age, Locked by Level, Coming Soon, Premium. |
| Safety label preview | Relevant safety labels, e.g., adult supervision, no knife, no open fire. |

# 12. Category Page Requirements

The Category Page appears after a user clicks a project card. It shows the category context, level structure, project thumbnails inside each level, and whether the selected project can be accessed based on age and level. The uploaded card sketch is interpreted as a project/category card style reference, not the final category detail page.

| Component | Requirement |
|---|---|
| Category header | Name, category color, short about, total projects, age range. |
| Current user status | Current level, stars in this category, locked/unlocked status. |
| Level navigation | Tiny, Baby, Junior, Young, Senior, Legendary, Mythical. |
| Project thumbnails | 5-7 project thumbnails per level. |
| Lock reason | Explain if locked by age, stars, or level. |
| Project entry CTA | Only unlocked projects can be opened/started. Locked projects can be previewed. |

# 13. Project Page / Workspace Requirements

| Component | Requirement |
|---|---|
| Project header | Title, category, level, age limit, star reward, duration, status. |
| Instruction video | One main video instruction for the 4-5 week project. |
| Weekly task descriptions | Detailed task instructions per week based on project management and research. |
| Report template | Downloadable document template for user report. |
| Member list | Shows accepted team members. |
| Invite member | Invite only by Student ID; only registered users can be invited. |
| Invited list | Shows pending invitations and Student IDs. |
| Start button | Visible before project starts. Project timer begins after start. |
| Timer | 4-5 week countdown begins after Start. |
| Submission | Upload report document and video proof. |
| Progress | Percentage/status based on weekly task completion and submission status. |

| Project Status | Definition |
|---|---|
| Not Started | Project opened but not started. Team may still be forming. |
| Waiting for Member | Project cannot start because minimum two members not reached. |
| Ongoing | Project started; timer active. |
| Submitted | Report/video submitted for review. |
| Needs Manual Review | AI/admin could not confirm completion or content needs checking. |
| Completed | Project accepted; star earned and achievement added. |
| Late | Final deadline missed. Fee may apply. |
| Retake Available | Project period has ended and one additional week has passed. User may retake. |

# 14. Project Management Learning Model

Every project must be research-based and follow a simplified real-world project management cycle suitable for children.

| Week | Default Focus | Example for Chef Ice Cream Project |
|---|---|---|
| Week 1 | Research and actual need/market validation. | Ask people about favorite ice cream flavors, allergies, ingredient price, market price, and possible selling price. |
| Week 2 | Build/create based on research. | Make an ice cream version based on Week 1 findings. |
| Week 3 | Test/validate with users. | Give testers a sample and collect structured feedback. |
| Week 4 | Improve and finalize. | Improve the product and prepare final report/video. |

| | | |
|---|---|---|
| Week 5 optional | Showcase/reflection for advanced projects. | Present project story, learning, result, and next improvement idea. |

# 15. Team and Invitation Rules

| Rule | Final MVP Decision |
|---|---|
| Minimum members | 2 registered users. |
| Solo start | Not allowed. |
| Invitation method | Student ID only. |
| Invite eligibility | Only registered users can be invited. |
| Team source | Recommended from school, community, family, or trusted circle. |
| Messaging | No free chat in MVP; invitation and system messages only. |
| Team delay | Team progress may be affected; late fee applies to late account only. |

# 16. Submission, AI Review, and Admin Review

| Item | MVP Review Method |
|---|---|
| Report document | AI-assisted review for completeness, consistency, and required answers. |
| Video proof | No AI video review in MVP. Manual admin/expert-admin check if needed. |
| Unlock decision | Can be automated after valid report review, but super admin can override. |
| AI failure | Submission status becomes Needs Manual Review. |
| Video issue | Admin can request resubmission or mark Needs Manual Review. |
| Final completion | Completed only after required report and video proof are accepted. |

## AI Report Review Criteria

- Report file exists and is readable.
- Required template sections are completed.
- Week 1 research/validation answers are present.
- Week 2 build/create explanation is present.
- Week 3 test/feedback evidence is present.
- Week 4 improvement/reflection is present.
- Content appears relevant to selected project.
- No obvious unsafe or irrelevant content is detected.

# 17. Stars, Levels, Achievements, and Unlocking

| Level | Recommended Minimum Age | Type |
|---|---|---|
| Tiny | 4+ | Regular |
| Baby | 6+ | Regular |
| Junior | 8+ | Regular |
| Young | 10+ | Regular |
| Senior | 13+ | Regular |
| Legendary | 15+ | Regular advanced |
| Mythical | 13+/15+ | Premium/expert content |

| Progress Rule | Decision |
|---|---|
| Regular project reward | 1 star. |
| Mythical project reward | 2-3 stars. |
| Projects per level | 5-7 projects per level. |
| Unlock basis | Age + level + stars + project completion. |

| | |
|---|---|
| Achievement | Added after project completion. |
| Certificate | Internal certificate can be generated later; optional in MVP if not part of first release. |

# 18. Subscription, Premium, Payment, and Deadline Fee

| Payment Item | Rule |
|---|---|
| Regular subscription | EUR 29/month/account. |
| Mythical / premium | EUR 50/star/project for MVP; may change later depending on expert. |
| Regular project access | Included in subscription subject to level, age, and unlock rules. |
| Free access | Can be defined as limited trial / preview; exact free project limit may be configured. |
| Payment method | Flipflop and/or manual admin approval. |
| Payment activation | Subscription/project access activates after admin/internal approval if manual. |
| Late fee | EUR 0.50 for missed final deadline. |
| Late fee cap | Maximum EUR 2/month/account. |

## Retake Rule

- Project can only be retaken if it was previously started.
- Retake is not available while the project timer is active.
- If project is unfinished, retake becomes available after the project period ends plus one additional week.
- Retake should preserve previous attempt history for audit and progress analysis.

# 19. Admin Requirements

| Admin Module | Requirement |
|---|---|
| User Management | View accounts, Student IDs, profile, subscription status, and user status. |
| Category Management | Create/edit categories, colors, age rules, descriptions. |
| Level Management | Manage Tiny, Baby, Junior, Young, Senior, Legendary, Mythical. |
| Project Upload | Upload thumbnail, instruction video, weekly tasks, report template, safety labels, age limits, level, star reward. |
| Payment Approval | Approve/reject Flipflop/manual payments. |
| Submission Review | View AI report results, manually review documents/videos if needed, approve/reject/override. |
| Achievement Management | Issue/revoke stars, achievements, and certificates if required. |
| Notification Management | Send system announcements and project reminders. |

# 20. Expert Content Handling

| Expert Capability | MVP Decision |
|---|---|
| Expert login/dashboard | No. |
| Expert uploads content directly | No. |
| Expert sees child data | No. |
| Expert reviews submission directly | No. |
| Expert sends material to admin | Yes. |
| Super admin uploads expert material | Yes. |
| Admin reviews Mythical content before publishing | Yes. |

# 21. Data, Privacy, Safety, and Compliance Rules

- All child-related media is private by default.

- Testimonials or public project videos require explicit parent public consent.
- Messages are not free chat; MVP supports system messages only.
- Student ID invitation prevents random public matching.
- Expert contributors cannot access child data in MVP.
- Every project should include age limit, safety label, material list, and adult supervision requirement if relevant.
- Payment, deadline fee, and project rules must be clearly accepted during registration/subscription/payment flow.
- Account deletion, retention, and privacy policy requirements should be prepared before public launch in Germany.

| Safety Label Example | Usage |
|---|---|
| Adult Supervision Required | For any project involving cooking, tools, outdoor activity, or risk. |
| No Knife | For younger cooking/fashion/maker projects. |
| No Open Fire | Cooking projects for lower levels. |
| Allergy Check Required | Food projects and material-sensitive projects. |
| Private Submission Only | Default for child video/photo submission. |

## 22. Notifications and Messages

| Feature | Rule |
|---|---|
| Message icon | System message inbox only. No free-form child chat in MVP. |
| Notification icon | Real-time or queued notifications for invitations, deadlines, payments, reviews, achievements. |
| Email notification | Sent to registered account email. |
| Invite notification | Displayed in Account invitation list and notification icon. |
| Deadline notification | Reminder before final deadline and late status if missed. |
| Review notification | Submitted, needs manual review, accepted, rejected/resubmission requested. |

## 23. UI Content, Language, and Localization

- MVP UI and developer-facing terms are in English.
- The product should be prepared for German localization later.
- Design should be family-friendly, warm, simple, and not overly childish.
- Category colors should help visual navigation but not overwhelm the interface.
- Stars must be presented as achievement/progress, not gambling or prize mechanics.
- Public website should include data-source labels below research fact cards.

| Vocabulary | Final Meaning |
|---|---|
| Category | Main field/path such as Chef, Robotics, Fashion. |
| Level | Tiny to Mythical stage inside a category. |
| Project | 4-5 week challenge with tasks, report, video, and star reward. |
| Task | Weekly project assignment. |
| Star | Reward after completed project. |
| Achievement | Completed project record in Account. |
| Student ID | System-generated ID used for invitations. |
| Start Your Career | Preference and project discovery flow. |

## 24. Data Model Impact Summary

| Data Area | Likely Tables / Entities |
|---|---|
| Account | accounts, profiles, account_settings, consents, student_ids |
| Categories and levels | categories, levels, category_levels |

| | |
|---|---|
| Projects | projects, project_tasks, project_materials, project_templates, project_media, project_safety_labels |
| Preference | account_category_preferences |
| Team and invitation | project_teams, team_members, project_invitations |
| Submission | submissions, submission_files, report_reviews, manual_reviews |
| Progress | stars, achievements, category_progress, level_unlocks |
| Payment | subscription_plans, account_subscriptions, payment_requests, payment_approvals, premium_purchases, deadline_fees |
| Admin | admin_users, admin_actions, audit_logs |
| Notifications | notifications, system_messages, email_logs |

## 25. Acceptance Criteria

57. User can browse Home, About Us, and Start Your Career preview before registration.
58. User can create one parent-managed account for one child with parental consent.
59. Registration requires minimum two category preferences.
60. Account page displays name, Student ID, class/category, level, about, stars, invitations, achievements, message icon, and notification icon.
61. Start Your Career project listing displays Popular, New Stars, Recommended, and Mythical cards.
62. Project card displays category color, level, age limit, about, thumbnail, star reward, and availability status.
63. Category Page displays levels Tiny through Mythical and 5-7 project thumbnails per level when content is available.
64. Locked projects explain lock reason: age, level, stars, or premium.
65. Project cannot start until at least two registered users are members.
66. Invitation works via Student ID only.
67. Start button starts project timer for 4-5 weeks.
68. Project Page supports instruction video, weekly tasks, report template download, member list, invite list, report upload, and video upload.
69. AI reviews report documents only.
70. Video is not reviewed by AI in MVP; admin/manual check is possible.
71. Super admin can override AI result and unlock/deny completion.
72. Completed project issues star and achievement.
73. Late fee is EUR 0.50 for final deadline miss and capped at EUR 2/month/account.
74. Retake is available only after started project period ends plus one week.
75. Expert has no dashboard and cannot access child data in MVP.
76. Testimonials on Home can only use child videos with explicit public parent consent.

## 26. MVP Roadmap

| Phase | Scope |
|---|---|
| Phase 1 - Foundation | Home, About Us, registration, consent, Account page, category preferences. |
| Phase 2 - Project Discovery | Start Your Career listing, cards, category page, lock/unlock rules. |
| Phase 3 - Project Workspace | Team invitation, Start button, timer, weekly task descriptions, template download. |
| Phase 4 - Submission and Review | Report upload, video upload, AI report review, admin override, achievement/star issue. |
| Phase 5 - Payment and Premium | Regular subscription, Flipflop/manual approval, Mythical project purchase, deadline fee. |
| Phase 6 - Hardening | Privacy, consent audit, public testimonial consent, admin tools, logs, localization preparation. |

# 27. Open Risks and Recommendations

| Risk | Recommendation |
|---|---|
| Too many categories at launch | Database and UI can show 9 categories, but content can be released gradually. |
| Content production burden | Start with 1-2 levels per category and 2-3 projects for priority categories, then expand. |
| Safety and child protection | Keep parent-managed account, no free chat, private media default, safety labels required. |
| Video review workload | Limit video duration and use manual review only when needed or for completion audit. |
| Payment complexity | Start with manual/Flipflop approval but keep payment abstraction for future providers. |
| Unsupported statistics | Use only sourced figures in Home Page and keep source labels visible. |
| Team dependency frustration | Use Student ID invitations and clear waiting status before Start. Project cannot start solo. |
| Expert workflow complexity | Keep experts outside the platform in MVP; admins upload all expert content. |
